**Brain Balance Achievement Centers Participates in
2011 Autism Expo**

Free, all-about-autism event takes place in Carmel

INDIANAPOLIS, Ind. – Brain Balance Achievement Centers in Indianapolis is participating as an exhibitor at the 2011 Autism Expo, which takes place Saturday, March 26 in Carmel, Ind.

The Autism Expo will be held from 10 a.m. – 1 p.m. at The Fountains, located at 502 East Carmel Drive in Carmel. It is a free, all-about-autism event for families, professionals and anyone involved in the autism community. There will be more than 100 vendors on hand with information, exhibits and a variety of special products for sale.

“The Autism Expo is a wonderful opportunity to let the community know about all that Brain Balance has to offer those suffering from Autism Spectrum Disorders,” said Brain Balance Indianapolis Executive Director Dr. Brad Ralston. “Brain Balance does not rely on medication and uses an integrated approach to correct a child’s underlying brain imbalance. We look forward to sharing information about the Brain Balance Program with those families or individuals affected by autism.”

Brain Balance Achievement Centers offer the Brain Balance Program in 38 nationwide locations. This *non-medical* program has been successful in helping hundreds of children who suffer from ADD/ADHD, Dyslexia, Tourette’s, Asperger’s and Autism Spectrum Disorders.

For more information about Brain Balance Achievement Centers and the Brain Balance Program®, please visit www.brainbalancecenters.com. Find Brain Balance Centers Indianapolis at www.brainbalanceindy.com as well as on Facebook and Twitter at @BrainBalanceIN.

Brain Balance Achievement Centers offer the Brain Balance Program® in 38 nationwide locations. The Brain Balance Program is an individualized and comprehensive approach to helping children with neurobehavioral and learning difficulties surmount their unique challenges. This proprietary, non-medical program has been successful in helping hundreds of children reach their physical, social/behavioral health and academic potential. Brain Balance Achievement Centers works with children who suffer with attention deficit disorder (ADD), attention deficit/hyperactivity disorder (ADHD), dyslexia, obsessive-compulsive disorder (OCD), Tourette's, Asperger's and Autism Spectrum Disorders.

The Brain Balance Program methodology was developed by Robert Melillo, D.C., DABCN, FACFN, FABCD; he started using it in 1994 with patients as an educational program. In 2006, Dr. Melillo co-founded Brain Balance Achievement Centers with William Fowler. He also authored a book, "Disconnected Kids," which shows parents how to use the Brain Balance Program's drug-free approach at home. For more information, visit www.brainbalancecenters.com.
