**Brain Balance Achievement Centers Welcomes Hanger as
Sensory Motor Coach for Brain Balance in Indianapolis**

***Please see attached picture of Blake Hanger*

INDIANAPOLIS, Ind. – Brain Balance Achievement Centers is pleased to announce that **Blake Hanger** has been named sensory motor coach for the Brain Balance facility in Indianapolis.

In this role, Hanger works with children in the sensory motor room doing a variety of activities, including computer work, motor skills, coordination, strength training and balance exercises. Hanger uses his understanding of the nervous system and the levels of developmental appropriateness in children with various learning disorders and hemispheric imbalances as a foundation for his position at Brain Balance.

Originally from Columbus, Hanger received his Bachelor of Science with a concentration in exercise science and health from Butler University. He was involved with Phi Delta Theta Fraternity as a Re-founding Father as well as the intramural sports chairman. He also served as the secretary for the Physical Education Majors Club at Butler.

Residing in Indianapolis, Hanger enjoys weight lifting, sports, movies, concerts, traveling and spending time with friends and family.

Brain Balance Achievement Centers offer the Brain Balance Program in 50 nationwide locations. This *non-medical* program has been successful in helping hundreds of children who suffer from ADD/ADHD, Dyslexia, Tourette's, Asperger's and Autism Spectrum Disorders.

For more information about Brain Balance Achievement Centers and the Brain Balance Program®, please visit www.brainbalancecenters.com. Find Brain Balance Centers Indianapolis at www.brainbalanceindy.com as well as on Facebook and Twitter at @BrainBalanceIN.

Brain Balance Achievement Centers offer the Brain Balance Program® in 50 nationwide locations. The Brain Balance Program is an individualized and comprehensive approach to helping children with neurobehavioral and learning difficulties surmount their unique challenges. This proprietary, non-medical program has been successful in helping hundreds of children reach their physical, social/behavioral health and academic potential. Brain Balance Achievement Centers works with children who suffer with attention deficit disorder (ADD), attention deficit/hyperactivity disorder (ADHD), dyslexia, obsessive-compulsive disorder (OCD), Tourette's, Asperger's and Autism Spectrum Disorders.

The Brain Balance Program methodology was developed by Robert Melillo, D.C., DABCN, FACFN, FABCD; he started using it in 1994 with patients as an educational program. In 2006, Dr. Melillo co-founded Brain Balance Achievement Centers with William Fowler. He also authored a book, "Disconnected Kids," which shows parents how to use the Brain Balance Program's drug-free approach at home. For more information, visit www.brainbalancecenters.com.
