**Brain Balance Offers October Parent Lecture and
Open House at Indianapolis Center**

Families can tour the Brain Balance facility and meet staff during open house; children are welcome

INDIANAPOLIS, Ind. – During October, Brain Balance Achievement Centers in Indianapolis will hold a **free parent lecture** as well as an **open house** for those wanting to learn more about the Brain Balance Program®, a 12-week afterschool program for children with neurobehavioral and learning difficulties.

The open house and parent lecture will be held at the Brain Balance Center facility in Indianapolis at **9510 N. Meridian Street, Suite D**. The events are scheduled at the following dates and times:

- **Parent Lecture: Tuesday, October 4, at 7 p.m.**
- **Open House: Saturday, October 15, 12 p.m. – 2 p.m.**

Individuals will have the opportunity to tour the new Indianapolis Brain Balance facility during the open house as well as meet and speak with some of the Brain Balance representatives. *Children and families are welcome.*

To register for a parent lecture, please call 317-843-9200. *Educators and professionals, such as occupational therapists, psychologists and pediatricians, are also encouraged to attend.*

Brain Balance Achievement Centers offer the Brain Balance Program in 50 nationwide locations. This **non-medical** program has been successful in helping hundreds of children who suffer from ADD/ADHD, Dyslexia, Tourette's, Asperger's and Autism Spectrum Disorders.

For more information about Brain Balance Achievement Centers and the Brain Balance Program®, please visit www.brainbalancecenters.com. Find Brain Balance Centers Indianapolis at www.brainbalanceindy.com as well as on Facebook and Twitter at @BrainBalanceIN.

Brain Balance Achievement Centers offer the Brain Balance Program® in 50 nationwide locations. The Brain Balance Program is an individualized and comprehensive approach to helping children with neurobehavioral and learning difficulties surmount their unique challenges. This proprietary, non-medical program has been successful in helping hundreds of children reach their physical, social/behavioral health and academic potential. Brain Balance Achievement Centers works with children who suffer with attention deficit disorder (ADD), attention deficit/hyperactivity disorder (ADHD), dyslexia, obsessive-compulsive disorder (OCD), Tourette's, Asperger's and Autism Spectrum Disorders.

The Brain Balance Program methodology was developed by Robert Melillo, D.C., DABCN, FACFN, FABCD; he started using it in 1994 with patients as an educational program. In 2006, Dr. Melillo co-founded Brain Balance Achievement Centers with William Fowler. He also authored a book, "Disconnected Kids," which shows parents how to use the Brain Balance Program's drug-free approach at home. For more information, visit www.brainbalancecenters.com.
