

Brain Balance Indianapolis Testimonial

“We are so pleased to have discovered a Brain Balance program in our area. After struggling for years to find someone who understood and could properly treat all of our daughter’s symptoms, we finally found a program that addressed all her issues and allowed her to improve.

Our daughter has thrived in the program and is now a much happier, more mature individual.

A weight has been lifted off of our shoulders, and we can’t thank Brain Balance enough for the life changes it has brought about for our daughter and our family.”

Patti Landgraf

Daughter: Claire

11 years old

Bloomington, IN

Diagnosed with ADHD and Sensory Processing Disorder
