

## **Brain Balance Indianapolis Testimonial**

“Brain Balance strengthened our son in many ways. His confidence in himself has improved greatly. He has gone from a sedentary child to one who asks now to go outside and play. Brain Balance was a delight for him to attend.”

“The staff was quite nurturing and understanding. Though Brain Balance was not a ‘cure all’ for our son’s difficulties, we are positive that the success he experienced in 7<sup>th</sup> grade was because of the Brain Balance method and curriculum. We recommend Brain Balance to anyone who wants to help their child with ADD symptoms!”
